

TROILTANK - Lightweight temporary storage tanks

PROVEN OIL SPILL TECHNOLOGY

TROILTANK - Lightweight temporary storage tanks

TROILTANKS are handy, lightweight, temporary storage tanks that pack flat when not in use. When required they are simply unfolded or erected and ready to fill!

The TROILTANK is a self-supporting, portable tank. All units have a lightweight frame. This makes the TROILTANK exceedingly simple and quick to erect.

TROILTANKS are available in a wide variety of sizes, the smaller units are especially compact and lightweight allowing one person to carry and fill without special tools.

TROILTANKS are suitable for temporary storage of many kinds of liquids including oils and wastewater. Equally they can be used for the temporary storage of oiled materials (clothing, sorbent, trash) prior to disposal.

TROILTANKS can also be used for the decontamination of personnel and small equipment.

Most TROILTANKS are light enough for one person to carry and can be stacked for storage.

The TROILTANK offers a lightweight and versatile solution to the problems of temporary storage of oily wastes. It is a valuable addition for any oil spill cleanup operation.

Advantages of TROILTANK:

- Portable framed temporary storage tanks
- Supplied in 1000gr alloy PVC/PU material for strength and versatility
- Range of sizes
- Compact storage
- Lightweight
- Easy to carry
- Inexpensive
- Accessories available: Ground and anti-slip mat, drain valve, cover
